

**Nurse Violence Bill HB#565 Sponsor: Representative Mercer
Executive Action**

Friday, Feb 26th, 2021 10:25:24 in the House Judiciary Committee RECAP:

Vice Chair – Representative A. Regier- Mr. Chair, I move HB#565 do pass. (Standard opening motion)

Representative Lenz-“Very much a boutique bill for a specific and special group. Noted the extra special group that represents the nurses. The organization that promoted it represents 20% of nurses. Brought up as part of it that Sports Officials were called out separately, and I am grateful that sports officials are brought in the law.... so I can mention that this is silly too....”

Representative A. Regier: “I feel like as the nurse in the room, I feel like I should chime in here. I would echo everything that Representative Lenz said. Many others help the nurses in these scenarios, the ER. To say that one is more valuable than the other but this law, I just don’t agree with that, and there are many laws on the books already.”

Representative Berglee- made a substitute motion to table. (This kills a bill if passes)

Representative Kelker- calls for a roll call vote.

Roll call- a non-debatable motion to table (kill) HB 565

Call for a roll call vote
